February 22, 2007

Dear Ms. Waterman:

Further to the Pure Salmon Campaign's letter dated 7th February 2007, could you please provide specific information (including any import documentation) on the Chilean companies involved in crystal violet contamination?

Please find attached here letters sent to Salmon of the Americas and SalmonChile as well as the UK Government.

In view of claims by the salmon farming industry regarding the traceability and provenance of farmed salmon, the Pure Salmon Campaign believes it is imperative that consumers have full disclosure.

Sincerely,

Andrea Kavanagh
Director
Pure Salmon Campaign
